Product Description

T302X Professional String Trimmer

Shindaiwa Trimmers are big on power and low on weight. A variety of engine choices – both in size and technology – will help you find the right trimmer for the job. Blade-ready T242X and T282X add even more versatility to the line-up. Speed-Feed® cutting heads that re-load in seconds without disassembly are standard on each model. Comfortable, ergonomic handles provide operator comfort for all-day operation.

Features

- 30.5 cc high-performance professional-grade engine produces 1.8 hp

- Magnesium fan housing reduces weight
- Over-molded front and rear hand grips improve operator comfort
- 1.62:1 gear reduction provides superior cutting performance
- Bellows-type intake reliably enables hot starts
- Flex cable drive provides the best combination of performance and low vibration
- Blade-ready
